

PACKAGING MARKING PROJECT (LAYOUT)

Cosmetic

WOLVIT® intensive care, shampoo

Primary packaging

WOLVIT® intensive care, shampoo

Biotin

Description of product properties, advantages:

Reduces hair loss

Stimulates hair growth

Nourishes hair and scalp

Strengthens hair from roots to tips

Description of product properties, advantages:

WOLVIT® intensive care helps to activate the hair growth phase and stop hair loss. Strengthens hair from the very roots to the tips. The shampoo saturates the scalp with a complex of useful nutrients and biotin, stimulating blood circulation and nourishing the hair follicle. The complex of components maintains the fat and water balance of the hair, making it strong and shiny.

WOLVIT® intensive care carefully cleanses and conditions hair.

How to use: apply to moistened hair and scalp, lather, leave for 2–3 minutes, rinse thoroughly with warm water. Suitable for daily use.

Main components: biotin, lactic acid, polyoxyl 40 hydrogenated castor oil, L-arginine, nicotinic acid, hydrolyzed wheat protein, linalool, L-limonene, olive oil, tocopherol (vitamin E), calendula dry extract, fragrant basil dry extract, common yarrow dry extract, pea sprout extracts, humulus lupulus extract, chamomile flower dry extract.

Manufacturer: KUSUM HEALTHCARE PVT LTD.

SP-289 (A), RIICO Industrial Area, Chopanki, Bhiwadi, Dist. Alwar (Rajasthan), India.

Importer: “GLADPHARM LTD” LLC.

58, Alma-Atynska St., Kyiv, 02092, Ukraine, phone: +38 (044) 495 82 88.

Storage conditions: store at a temperature below 25°C.

Indicated: Safety, environmental or other trademarks. SYMBOLS USED ON PACKAGING/CONTAINER

The nominal volume of the product is indicated: 200 ml.

Biotin

Description of product properties, advantages:

Reduces hair loss

Stimulates hair growth

Nourishes hair and scalp

Strengthens hair from roots to tips

Description of product properties, advantages:

WOLVIT® intensive care helps to activate the hair growth phase and stop hair loss. Strengthens hair from the very roots to the tips. The shampoo saturates the scalp with a complex of useful nutrients and biotin, stimulating blood circulation and nourishing the hair follicle. The complex of components maintains the fat and water balance of the hair, making it strong and shiny.

WOLVIT® intensive care carefully cleanses and conditions hair.

Biotin helps to restore the damaged structure of the hair shaft and activates the functioning of the hair follicles, which stimulates the growth of healthy hair. The component also prevents premature gray hair.

Nicotinic acid (vitamin PP) – due to its ability to expand blood vessels, helps to saturate and enrich the entire scalp and hair follicles with useful nutrients.

Tocopherol (vitamin E), L-arginine, olive oil have a moisturizing effect on the scalp, add shine and strength to hair.

Wheat proteins saturate the scalp and hair with protein, which makes it denser, smoother and shinier, causing the effect of “protein lamination”.

Extracts of medicinal plants (medicinal calendula, fragrant basil, common yarrow, pea sprouts, hops, humulus lupulus, chamomile flowers) have an anti-inflammatory and soothing effect on the scalp, and also activate cell regeneration.

How to use: apply to moistened hair and scalp, lather, leave for 2–3 minutes, rinse thoroughly with warm water. Suitable for daily use.

Main components: biotin, lactic acid, polyoxyl 40 hydrogenated castor oil, L-arginine, nicotinic acid, hydrolyzed wheat protein, linalool, L-limonene, olive oil, tocopherol (vitamin E), calendula dry extract, fragrant basil dry extract, common yarrow dry extract, pea sprout extracts, humulus lupulus extract, chamomile flower dry extract.

Composition: purified water, MIPA laureth sulfate, cocamidopropyl betaine, cocoglucoside, PEG-4 rapsidamide, propylene glycol, biotin, lactic acid, polyoxyl 40 hydrogenated castor oil, peony flavor, complex flavoring agent, sodium hydroxide granules, benzyl alcohol, phenoxyethanol, guar hydroxypropyltrimonium chloride, potassium sorbate powder, benzoic acid, sodium lactate, starch hydroxypropyltrimonium chloride, sodium benzoate, L-arginine, nicotinic acid, hydrolyzed wheat protein, linalool, L-limonene, geraniol, olive oil, mixed natural tocopherol 90%, medicinal calendula dry extract, fragrant basil dry extract, common yarrow dry extract, pea sprouts extracts, humulus lupulus extract, chamomile flowers dry extract.

Storage conditions: store at a temperature below 25°C.
